EDUCATION

-
- **Rajshahi University of Engineering & Technology (RUET)** Rajshahi, Bangladesh
B.Sc. in Computer Science and Engineering, CGPA: 3.74/4.00 2026

AWARDS AND RECOGNITION

-
- **Technical Merit Scholarship, RUET:** Awarded in all four years of undergraduate study.
 - **bdapps Innovation Summit 2025:** Top 10 finalist and 10th position as a member of the Barta/Khobor team.

UNDERGRADUATE THESIS

-
- **A Structured, Clinically-Validated Dataset for Medical Specialty Routing from Doctor–Patient Consultations** — *B.Sc. Thesis, 2025 – 2026*
 - Built a patient-level tabular dataset (~30,500 records) for symptom-to-specialty routing from real doctor–patient consultations (MedDialog corpus), spanning a 13-specialty routing taxonomy.
 - Designed an LLM-based extraction pipeline (GPT-4.1-mini) mapping free consultation text onto a controlled 105-term symptom vocabulary, capturing clinician-annotated severity and duration for each symptom alongside patient demographics.
 - Evaluated the dataset’s value through a 7-model comparison and a feature-ablation study, quantifying the contribution of structured features to routing accuracy.
 - Tech stack: Python, pandas, scikit-learn, Keras/TensorFlow, OpenAI API, Jupyter.

PROJECTS

-
- **Khobor — Swipe & Scroll** Feb 2025 – Present
Six-member cross-functional product team; Developer (Frontend & Backend).
Bangladesh’s first bite-sized, swipeable news app; ranked 10th nationally among 1,500+ innovations at the bdapps Innovation Summit 2025. Built the Next.js web frontend (thekhobor.com) and worked on the app backend.
Technologies: Next.js, Express.js, TypeScript.
 - **Nibedito — Gift E-commerce Platform** Ongoing
Two-member team; both members contributed across frontend, backend, and database.
Building a full-stack e-commerce platform for curated gifts, including category browsing, a product catalog, and cart/checkout flows.
Technologies: Next.js, Express.js, MongoDB.

TECHNICAL SKILLS

-
- **Programming Languages:** Python, C++, SQL, JavaScript, TypeScript
 - **Machine Learning & Data:** scikit-learn, TensorFlow/Keras, pandas, NumPy, LLM-based data pipelines
 - **Web & Backend:** Next.js, React, Express.js, Node.js, MongoDB
 - **Tools & Platforms:** Git, Jupyter, Linux, Docker (basic)

ADDITIONAL INFORMATION

-
- **Languages:** Bangla (Native); English (Professional working proficiency)
